Saïd Business School, University of Oxford

The role

Within Saïd Business School, Executive Education is targeted for significant growth over the next three years. We plan to at least double our revenue; an aim the Client Engagement and Programme Delivery Team will play an important role in delivering.

Reporting to the Senior Client Engagement and Delivery Manager, the Client Engagement and Delivery Manager will ensure the end-to-end services we deliver to our clients are world-class and embed our reputation as a leading global business school within the world's leading university.

A specialist with a proven track record in Client Engagement and/or Programme Delivery, you will be responsible for managing all aspects of the client service that enable the successful execution and seamless delivery of all our learning programmes worldwide, whether it be in-person in one of our Oxford campuses, working at one of our clients' sites, blended, or fully online.

The post-holder will be responsible for the project management of all aspects of delivering client learning programmes within Executive Education within the School. This is likely to be delivering customised learning and development initiatives that help our clients achieve their objectives in developing their strategic organisational capabilities and talent. But it may increasingly encompass other types of learning services and interventions as our proposition, product and portfolio adapt to changing market needs and opportunities.

The post-holder will be fully responsible for building and maintaining strong relationships with our clients, ensuring a seamless and exceptional experience from initiation of an agreement through to completion of the agreed services. This will include offering high-quality project management services to deliver agreed programmes of work; coordinating learning design and development activity through our network of design specialists, Faculty, Associate Fellows and Programme Directors; managing the preparation of programmes and all learning activities in the

run-up with Programme Managers and Coordinators; ultimately being accountable for ensuring we meet our obligations to clients and that participants enjoy a seamless learning experience.

The Client Engagement and Delivery Manager will be responsible both for a portfolio of clients and be a member of a small team of Client Engagement and Delivery Managers, Programme Managers and Programme Coordinators, all of whom are engaged in delivering successful client programmes.

They will have responsibility for leading their client programme teams in a matrix environment and managing and coordinating planning activity through to delivery execution for all their clients' engagements.

This includes creation and management of the project plan, planning key stakeholder meetings, management oversight of all logistics, implementation, management and tracking of all budgets and oversight of programme delivery planning.

They will ensure that contracts are in place with their clients and raise Purchase Orders/Work Orders against agreed budgets; they will take primary responsibility for ensuring expenditure is within budget and that the School's interests are protected.

As a Client Engagement and Delivery Manager, you will play a key role in building and maintaining the client and stakeholder relationships required to deliver these learning programmes, with support from the Sales and Customer Relations and Learning Impact and Innovation Teams, as well as our wider community of Faculty and Associate Fellows.

Our Sales and Customer Relations Team will be ultimately responsible for growing and expanding our client relationships. The Client Engagement and Delivery Managers will also be engaged in planning to support client retention and deliver growth and encouraged to identify opportunities for cross- and upselling.

Every programme is subjected to formal evaluation by the individual participants and the client organisation. Client satisfaction is a crucial element in the published rankings on which the School's reputation depends and is a top priority for the post-holder.
